

**CORRECTION TO THE PAPER "ON THE
DIOPHANTINE EQUATION $n(n + d) \dots (n + (k - 1)d) = by^l$ "
(CANAD. MATH. BULL. 47 (2004), 373–388.)**

K. GYÓRY, L. HAJDU AND N. SARADHA

In the article under consideration Lemma 6 is not true in the form presented there. Lemma 6 is used only in the proof of part (i) of Theorem 9 of the paper. We note that part (i) of Theorem 9 in question is a special case of Theorem 1.2 of the recent paper [27] by Bennett, Bruin, Gyóry and Hajdu.
